**Neil Jose**

Hiring Manager

Google

Dear Mr. Neil,

I am writing to formally apply for a job at Google. I saw the job post on your website and became very interested. I would love to be part of your team and learn more while doing meaningful work.

I am a student who is passionate about technology and design. I know basic programming, and I also have skills in graphic design and creating user interfaces using Figma. I enjoy working on both the creative and technical sides of a project. I can help with simple design tasks, organize information, and work with others to solve problems.

Even though I am still a student, I am very eager to learn and grow. I am responsible, open to feedback, and always try my best in everything I do. I am also willing to learn other tools and software to improve my skills and support the team better.

I believe I can be a good team member and bring a positive attitude to your company.

Thank you for considering my application. I would be grateful for the opportunity to further discuss how my skills and enthusiasm can contribute to your company's success. Please feel free to contact me through the email address provided above.

Sincerely,

Signature
